2025 Amendment

Lyndale

TIMELINE

January - April: LNA is part of a group of community partners and neighborhoods providing outreach and engagement work to the community for the City's New Nicollet Redevelopment project at the former Kmart site. Our current contract runs through April 2025.

January: Host Free Fest at Painter Park on January 27th from 6-8 pm. This is a free community event where neighbors sign up for tables to give items as gifts to neighbors and neighbors are able to shop for free. LNA will provide information about our organization and programs/projects as part of this event.

April: Host Book Fest at Horn Towers on April 28th from 6-8 pm. This is a free community event where LNA solicits donations of books from neighbors, highlighting cultural and multi-language texts, and books are set up for neighbors to shop without limits. LNA will provide information about our organization and programs/projects as part of this event.

May-December: LNA will work with Project for Pride in Living to provide outreach and engagement opportunities for neighbors to learn more about the Opportunity Crossings affordable housing site being built in the neighborhood. A possible engagement opportunity will be for PPL leadership to attend a LNA Housing Committee meeting to share an updated timeline of the project and receive feedback from neighbors about concerns for the site.

LNA also expects there will be additional infrastructure development in the neighborhood that will be shared through the Housing Committee, our eNews, and possibly the bi-lingual three neighborhood combined print newsletter called the South Nicollet News.

GOALS

1. Through community outreach promote resident engagement in at least 2 projects related to Lyndale's built environment and development (New Nicollet Redevelopment, Opportunity Crossings Affordable Housing Site, etc.).
2. Host at least one exchange of needs and assets swap.
3. Host a LNA Community Gathering at Horn Towers at least once per year.
