St. Anthony West NRP Phase II Plan

A. Introduction

The City of Minneapolis in the late 1980s proposed the development of a unique process through the merging of its 84 separate communities into one collective force – the Neighborhood Revitalization Program (NRP). St. Anthony West’s involvement with NRP began in the early 1990s as a collaborative effort when area residents, businesses, and numerous public and private entities joined forces in response to the city’s NRP challenge.

In 1995, after a three-year effort, our neighborhood group submitted a \$1.4 million action plan that not only addressed immediate neighborhood concerns but also laid the groundwork for challenging the next generations of Northeast Minneapolis residents.

Today, building on our Phase I foundation, the neighborhood community is continuing to focus on its core concerns of housing, community development, environment and livability issues while beginning the process of developing a new paradigm based on long-term models proposed by the recently appointed Neighborhood and Community Engagement Commission (NCEC).

St. Anthony West Neighborhood Organization’s (STAWNO) ultimate success will be in navigating from an “allocation-based” environment to a climate with a focus on “collaborative results-oriented, grant-funded models.” Without a pro-active committed effort to build new resident, business, faith-based, government and institutional coalitions within neighborhoods, maintaining community vitality will be difficult.

The challenge is now.

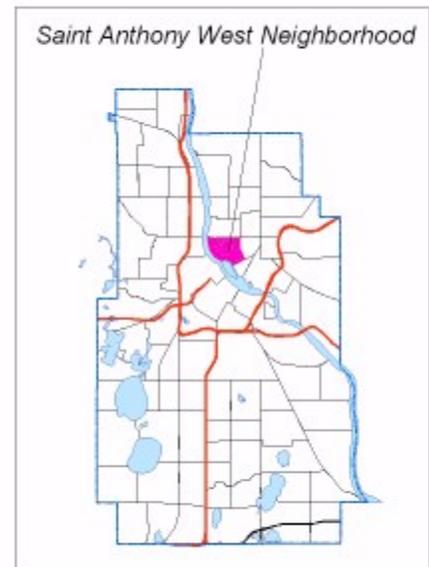

St. Anthony West NRP Phase II Plan

B. Neighborhood Profile and History

St. Anthony West is in the Northeast community of Minneapolis. Broadway Street NE bounds the neighborhood on the north, on the west by the Mississippi River, on the south by the railroad tracks north of First Avenue, and on the east by Washington Street NE and Fifth Street NE. The neighborhood takes its name from the original settlement that eventually became the city of Minneapolis some 150 years ago. It is one of the oldest neighborhoods in Minneapolis and its history is directly intertwined with its position along the Mississippi River. The neighborhood originally was home to indigenous Americans and later to sawmills and immigrant settlement houses.

Today the neighborhood (population 2,623) is mainly residential, with 38% of the housing owner-occupied and 62% rental, according to the most recent U.S. Census data available. A number of high-density high-rises are located in the neighborhood, with many older duplexes, triplexes and four-plexes. One focal point is the Catholic Eldercare nursing home and its adjacent MainStreet Lodge assisted-living center. Large businesses in the neighborhood include Graco and Scherer Bros. Lumber.

The St. Anthony West Neighborhood Organization was formed in 1961 by the city in conjunction with planned redevelopment via the federal Housing and Urban Development program. Plans called for the major removal of outdated and vacant business properties and substandard houses. A freeway link was also slated for the neighborhood, but grassroots opposition resulted in a landmark change of plans that ultimately led to the

St. Anthony West NRP Phase II Plan

successful addition of new homes and condos in this area. This change continues to help build a vibrant riverfront and a thriving, in-demand neighborhood where once heavy industry and outmoded housing reigned.

Since the advent of NRP in the 1990s, the neighborhood has been able to continue this tradition of addressing blight, crime and inadequate housing infrastructure via its Phase I Neighborhood Action Plan. We hope to build upon this in our Phase II Plan.

NRP's Phase I Impact

From its inception in the early 1990s, Minneapolis Neighborhood Revitalization Program (NRP) was a catalyst for evolutionary change in how individuals and neighborhoods interact with city government. St. Anthony West's 1990s renaissance was due in part to NRP's infusion of housing-related capital expenditure of close to \$1,600,000. Those NRP investments in our neighborhood directly funded over 100 revolving home improvement loans and, under the GAP Program, the complete rehab of 11 buildings, many identified as former centers of criminal activities. Public sector funds from all NRP community-based programs were not just stand-alone projects, but were also instrumental in stimulating over \$3,000,000 in private capital improvements. When combined, these investments positively impacted nearly half of St. Anthony West's 460 homesteaded properties.

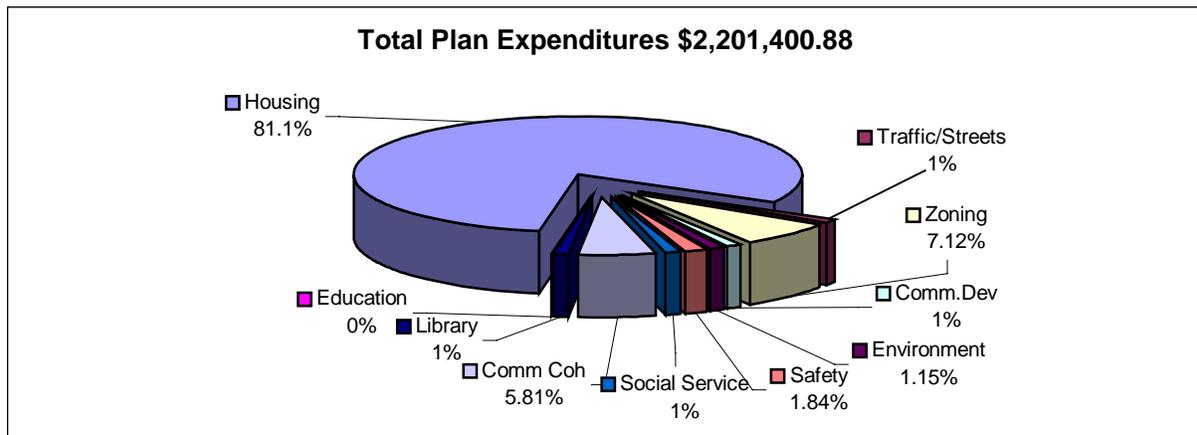

The first decade of this new century has found an influx of young families, along with existing community residents, taking advantage of rising real-estate values to improve the quality of our existing housing stock. Along with these gains have come a renewed appreciation of the locale and the history of our eclectic neighborhood in a unique urban setting.

St. Anthony West NRP Phase II Plan

Walking the streets and avenues of old St. Anthony and conversing with friends and neighbors, one senses the strength and vitality of our community. One becomes aware of its challenges, but confident in the future as our community moves through its second millennium.

Phase I Expenditures

Note: Total expenditures are greater than the Phase I allocation due to the expenditure of Program Income.

St. Anthony West NRP Phase II Plan

Neighborhood Demographics

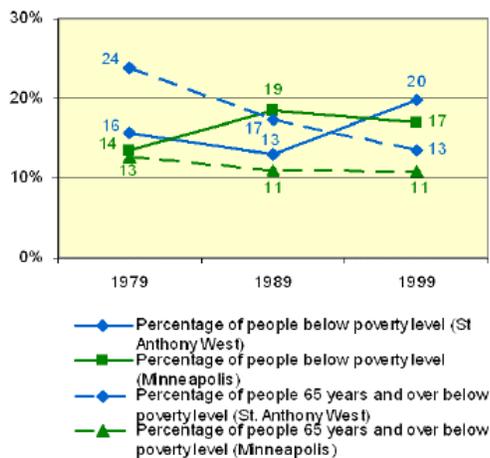

Since its early involvement with the Department of Housing and Urban Development (HUD) in the 1960s, the St. Anthony West Neighborhood has experienced significant public and private sector investment in community infrastructure, including the 1995 allocation of over \$1.4 million in Phase I funding made available through Minneapolis’s Neighborhood Revitalization Program.

Infusion of those investment dollars has had a dramatic influence over the years on St. Anthony West neighborhood demographics, illustrated effectively through substantial changes to the U.S. Census Bureau’s 2000 figures.

With the 2010 U.S. Census on the immediate horizon, further review of statistical data on population, median income, housing and labor markets should reflect the decade-long community commitment to growth and development.

St. Anthony West NRP Phase II Plan

C. Outreach & Planning

St. Anthony West's NRP Outreach Program encompassed a time and action plan that included:

- Program Outline, Parameters, and Budget Approval Process. Completed and reviewed by the NRP and STAWNO Board of Directors in May 2008.
- Neighborhood NRP Pre-Planning Sessions. Initiated to review the community outreach requirement under the auspices of the Neighborhood Revitalization Program's Field Representative, Stacy Sorenson, and facilitated by Rosanna Armson, department head of the University of Minnesota Center for Research. This segment of the program ended in June 2008.
- Design, Outline and Content of the St. Anthony West Neighborhood Organization Residential Comprehensive Survey. The result of collaboration between the NRP, committee members and the U of M staff. Constructed as a return mailer, carried the NRP indicia, with compilation and analysis of data the responsibility of NRP staff. Survey project was completed in June 2008, with analysis of data process continued through April 2009.
- Neighborhood Town Hall Meetings. Introduced our outreach program to residents by means of flyers and NRP surveys delivered to each household and announced by bulletin or pulpit in each of our neighborhood's six houses of worship in late June 2008. July's meetings were held on consecutive Mondays, at three strategic locations, staffed and facilitated by committee members, STAWNO and the NRP representatives. All data were compiled and integrated.

St. Anthony West NRP Phase II Plan

- Neighborhood Revitalization Program. NRP staff's participation in all aspects of the St. Anthony West Neighborhood Organization Outreach Plan was from day one instrumental in maintaining the focus, direction and process of this aspect of our Phase II Challenge. This program is ongoing.
- Proactive Outreach Activities. August, September, and October saw National Night Out Block Club presentations, Farmers Market, Corn Fest informational booth and an Interactive Display at STAWNO's annual Autumn Eve Festival. All activities were designed to draw interest to our Outreach Campaign.
- E-Mail Communication. Provided by the St. Anthony West Neighborhood Organization business office, processed and delivered valuable communication within our neighborhood by means of our website and e-mail functions.
- Printed Outreach Medium. Included the residential survey, various flyers and our STAWNO newsletter, *The River Beacon*. From June through December 2008 *The River Beacon* ran front-page articles covering NRP results and activities while serving as a delivery vehicle for all other outreach print information.
- NRP Committee meetings and forums. These were numerous and ongoing, and served to inform or query residents and STAWNO Board Members about St. Anthony West's progress toward completion of our Phase II Program.

St. Anthony West NRP Phase II Plan

D. Phase II Strategies:

1. Housing

(\$155,267.45 of \$224,642 Phase II Plan Total)

Goal – Homes have been and will continue to be the cornerstone of St. Anthony West’s Neighborhood Revitalization Planning.

Objective - Preserve and add to the quality and affordability of our housing stock. *Phase II’s 70%+ commitment of available NRP dollars to housing illustrates the community’s ongoing support for the preservation of our unique, historic neighborhood.*

1.1 Revolving Loans

Strategy: St. Anthony West Neighborhood will continue its efforts to build on the merits of NRP Phase I through extension of the Revolving Loan Program. With substantial reduction in available funding, maximum loan amounts will be capped. Previous covenants, which covered homeowner eligibility, repairs to principal structure, and exclusion of cosmetic repairs and additions, are still in place.

Partners – STAWNO (St. Anthony West Neighborhood Organization), NRP (Neighborhood Revitalization Program), GMHC (Greater Metropolitan Housing Corporation), or CEE (Center for Energy and Environment) and DFD (Minneapolis Development Finance Division).

Funding - NRP

Budget \$83,267.45

1.2. Emergency Loans

Strategy: Establish an emergency loan program for homeowners who experience a housing emergency that is structural or safety code related.

Partners – STAWNO, NRP, GMHC or CEE and DFD

Funding - NRP

Budget \$20,000

St. Anthony West NRP Phase II Plan

1.3. Needs-Based Deferred Loans

Strategy: Provide deferred loans for low-income homeowners in St. Anthony West for non-cosmetic improvements to their principal structure. These funds would be administered as loans with a 1% annual interest rate that would be due upon sale of the property or if the property is no longer owner-occupied.

Partners – NRP, STAWNO, GMHC or CEE and DFD

Funding- NRP

Budget \$20,000

1.4. Green Home Improvements

Strategy: Provide loan dollars for home improvements that reduce green house gas emissions or carbon footprints. These very low-interest loans would apply towards eligible improvements, which may include solar, geothermal and high- efficiency (furnaces, water heaters, insulation, windows, etc.) improvements. Funds may also be used to make energy audits available to residents.

Partners- Xcel Energy, STAWNO, NRP, GMHC or CEE, DFD and CPED

Funding - NRP

Budget \$30,000

1.5. Safety Lighting

Strategy: Support the purchase of motion detector lights. These lights have had a proven record of crime prevention and funds will be available on a first-come, first-served basis for all community residents.

Partners – Home improvement stores, STAWNO and NRP

Funding - NRP

Budget \$2,000

St. Anthony West NRP Phase II Plan

2. Community Outreach and Development

(\$54,874.55 of \$224,642 Phase II Plan Total)

Goal – Continue our commitment to reach out to every resident within our neighborhood asking for their participation while offering assistance and volunteer services to benefit our St. Anthony community as a whole.

Objective – To use all neighborhood outreach assets, including Farmers Market, *River Beacon* newsletter, monthly meetings, our website, and E-Communication among others to broadcast information about neighborhood community services.

2.1. Community Outreach

Strategy: Coordinate activities to strengthen our neighborhood and assist in the implementation of our NRP Plan. These activities include but are not limited to:

a. Interactive Website/E-Communication

Acquire software programs to build on our neighborhood organization's communication capabilities. (Budget: \$1,000)

b. Farmers Market

Building on a continued theme of community engagement, the STAWNO group will staff the Northeast Farmers Market each Saturday, June through September, to display and promote neighborhood awareness and active community involvement through participation in our organization's activities. (Budget: \$500)

c. Grant Writer

Fund a part-time grant writing specialist. With the future of Neighborhood Revitalization Program funding coming to a legislated end, the new paradigm will change from allocations to grant funding. Many city neighborhoods have successfully utilized the grant process to supplement their NRP revenue stream through various public and private institutions. Our neighborhood organization will need to fund and ramp up this skill set immediately to compete for a limited resource. (Budget: \$2,374.55 + \$3,625.45 from Phase I rollover)

d. River Beacon/STAWNO Newsletter

Continue publication and distribution of a neighborhood newsletter. This publication serves as the principal vehicle for neighborhood communication, and also provides distribution of other print notices to area residents. Our neighborhood newspaper, published electronically and in hard copy, is written, printed and delivered community-wide on a totally volunteer basis. (Budget: \$500)

St. Anthony West NRP Phase II Plan

e. Administrative Expenses

Support the staffing, office expense and operating cost of the St. Anthony West Neighborhood Organization as it implements its NRP strategies. This function is the core of neighborhood activities and must have secure short-term and long-term funding. (Budget: \$25,000 – includes \$12,765 in previously approved Phase II Plan Development funds)

f. Walking Club /Wellness Activities

Encourage residents to take advantage of community-based activity by joining together in healthy, walking competition among organized neighborhood teams. This activity will result in both neighbors getting to know each other and increased safety by increasing eyes on the street. (Budget: \$500)

Partners – STAWNO, NRP, Northeast Farmers Market, U of M

Funding - NRP

Budget \$29,874.55 (includes \$12,765 in previously approved Phase II Plan Development funds) + \$3,625.45 from Phase I rollover (\$3,625.18 from 2.1.C - Purchase/Demolition Fund and \$0.27 from 1.1.A - Renter to Homeowner Incentives)

2.2. Neighborhood Merchandise

Strategy: Purchase items emblazoned with the STAWNO logo for distribution at specific events where contributions have offset costs. This proposal suggests sales through various neighborhood events and marketing through E-Communication.

Partners – STAWNO and NRP

Funding – Fundraising

Budget \$0

2.3. Neighborhood and Gateway Signs / Traffic Calming

Strategy: Design and install gateway neighborhood signs to increase awareness of neighborhood identity and encourage traffic calming throughout the neighborhood.

A portion of this funding will be used for neighborhood signs at the Broadway/University and Broadway/Marshall intersections. Community members will be encouraged to finance and adopt signs. Traffic calming efforts will focus on

St. Anthony West NRP Phase II Plan

the Broadway/University, Broadway/Marshall and other intersections. Funds may also be used to support other traffic calming efforts.

Partners – STAWNO, NRP, and MDPW (Minneapolis Department of Public Works).

Funding - NRP

Budget \$25,000

St. Anthony West NRP Phase II Plan

3. Livability and Safety

(\$12,500 of \$224,642 Phase II Plan Total)

Goal – Find solutions for the triple threat of crime, safety and traffic issues. Help to create a fabric that binds people to their communities.

Objective – Work with and through existing city infrastructure and our own community programs to assist in the following initiatives:

3.1. Volunteer Walk, Bike and 311 Patrols

Strategy: By working together with block clubs, volunteer citizens, STAWNO’s Board and Minneapolis’s 2nd Precinct Crime Prevention Specialist, develop a program, similar to the Minneapolis block by block Downtown Improvement District (DID), utilizing neighborhood residents on foot and bike patrols, as community eyes and ears on the street.

The neighborhood envisions a program working hand in hand with the 2nd Precinct C.P.S. staff coordinating both training and daily “real-time” direction while benefiting from and adding to community efforts currently in place (Walking Club and 311 Patrols). These highly visible (lime-colored vests) activities would seek to maximize citizen participation through a clearly defined mission to reduce crime, increase safety and community awareness while working to create a litter-free neighborhood environment.

Partners – STAWNO, DFD, 2nd Precinct, MPD and CCP/SAFE

Funding – NRP

Budget \$1,000

3.2. National Night Out Programs (NNO)

Strategy: Work to increase STAWNO interaction with NNO staff, developing additional participation in this national event. NNO helps build safer and healthier community environments through block clubs, anti-crime programs and strengthening police-community relations.

Partners – STAWNO, NNO, MPD and 2nd Precinct

Funding - Community Volunteers

Budget \$0 – Unfunded Priority

St. Anthony West NRP Phase II Plan

3.3. Block and Apartment Clubs/Direct Door Marketing

Strategy: Implement a limited “door-knocking” effort throughout the entire STAWNO neighborhood to help create Block Club awareness and enhance neighborhood e-mail communication capability. Develop an expanded residential database aimed at increasing individual participation in community-based activities.

Partners – STAWNO, NRP, MPD and CCP/Safe

Funding – NRP and Community Volunteers

Budget \$4,000

3.4. Summer Safety Patrol-

Strategy: Support supplemental police patrols during the summer months. Develop a summer safety strategy with the 2nd Precinct.

Partners – STAWNO, MPD and 2nd Precinct

Funding - NRP

Budget \$7,500

3.5. COPSIRF (Community Oriented Public Safety Initiatives Reserve Fund)

Strategy: Partner with the 2nd Precinct and the Sheridan Neighborhood Organization (SNO) to prevent crime through directed patrols in the “NE Bar Beat.”

Partners – STAWNO, MPD and 2nd Precinct

Funding – NRP Reserve Funds

Budget \$24,962.95 – Program Completed in 2004

St. Anthony West NRP Phase II Plan

3.6. Townhouse Community Outreach

Strategy: Seek involvement of our Third Avenue Townhouse residents in St. Anthony West Neighborhood Organization outreach. Attend Townhouse Association meetings to stir interest and develop worthwhile feedback.

Partners - STAWNO

Funding – Community Volunteers

Budget \$0 – Unfunded Priority

3.7. Senior and Young Adult Outreach

Strategy: Determine by community how STAWNO can be more relevant to these two important bookends of our Northeast Community. Is it possible with limited funding to have more than just a passing degree of influence or impact on their lives? What, if anything, would they want or expect from our organization and what can we deliver? This program's goal is to determine whether they will participate and help support our community with both their enthusiasm and experience.

Partners – STAWNO Board and area residents

Funding – N.A.

Budget \$0 – Volunteer Neighbor Participation

St. Anthony West NRP Phase II Plan

4. Parks, Education and Environment

(\$2,000 of \$224,642 Phase II Plan Total)

Goal – Provide for volunteer neighborhood support in the absence of available funding for regionally based community assets.

Objective – Work in partnership with representatives from the Minneapolis School Board, Minneapolis Park and Recreation Board, MPD and other governmental agencies responsible for governing regionally based community assets.

4.1. Green Gardening Grants

Strategy: Continue to provide funding to the St. Anthony West Neighborhood in the form of mini-grants of up to \$200 designated to support boulevard planting and other green initiatives.

Partners – STAWNO, DFD, Metro Blooms and area residents

Funding - NRP

Budget \$2,000

4.2. BF Nelson Regional Park / Environmental Projects

Strategy: The St. Anthony West Community and Neighborhood Organization have worked hand in hand with the Minneapolis Park and Recreation Board (MPRB) in developing the 12-acre BF Nelson site for the past 20 years. Plans for continued development of this historic and unique regional park include the relocation of our Pioneer Family monument. Funds from the strategy may also be used for related neighborhood-initiated environmental efforts.

Partners – STAWNO and MPRB, Groundwork Minneapolis

Funding – Community Volunteers

Budget \$0 + \$5,630 from NRP Phase I rollover (from 5.2.A - River Overlook Project)

St. Anthony West NRP Phase II Plan

4.3. Bike Community Lanes and Pathways

Strategy: Our community will work with and support MPRB and the Bicycle Advisory Committee (BAC) in developing their plans for bicycling as a non-polluting, cost-reducing, healthy, and effective method of recreation and transportation for our region

Partners – STAWNO, BAC, NRP

Funding – N.A.

Budget \$0 (Volunteer Neighborhood Participation)

4.4. Schools/Playgrounds/Youth Programming

Strategy: St. Anthony West’s area schools and playgrounds have been negatively impacted by consolidation and by the limited availability of playground facilities. Our organization’s energies will be best used by directing our support toward Northeast’s Park Board and School Board representatives’ initiatives.

Partners – STAWNO, MPS (Minneapolis Public Schools) and MPRB

Funding – Community Volunteers

Budget \$0 – Unfunded Priority

4.5. Community Fundraising Events

Strategy: Continue to be involved with our St Anthony West Community in support of local fundraising events that include the Northeast Farmers Market Corn Feed and their Pancake Breakfast events, the Stone Arch Bridge Festival, Autumn Eve Silent Auction and Riverfront Run, all designed to benefit community-based activities.

Partners - STAWNO

Funding – Community Volunteers

Budget \$0 – Unfunded Priority

St. Anthony West NRP Phase II Plan

5. Institutional and Faith-based Community Outreach

(\$0 of \$224,642 Phase II Plan Total)

Goal –Reach out to the many faith-based communities and institutions in our St. Anthony West neighborhood, looking for common interests and opportunities to partner for the mutual benefit of our neighborhood and members of faith-based communities.

Objective – Highlight and define programs that will find partners from our many communities, including but not limited to St. Boniface, St. Maron’s, All Saints, St. Michael’s, St. Constantine’s, St. Anthony, St. John’s, Meditation Center and Ukrainian Center.

5.1. Mutually Beneficial Projects, Programs, or Initiatives

Strategy: Fundraising for installation and maintenance for Neighborhood Signage and Traffic Calming as detailed in Strategy 2.3.

Partners – STAWNO, 3M and MPWD

Funding – NRP with other Community Resources

Budget \$0 – Unfunded Priority

5.2. Mutually Beneficial Initiative (Scholarships)

Strategy: Work with St. Anthony West’s institutional and faith-based communities to provide scholarships to deserving neighborhood residents.

Partners – STAWNO and Neighborhood Institutions

Funding – Community Resources

Budget \$0 – Unfunded Priority

St. Anthony West NRP Phase II Plan

6. Business Community Outreach *(\$0 of \$224,642 Phase II Plan Total)*

Goals: Look for ways and means to partner with our limited St. Anthony West business community, offering win-win opportunities for STAWNO and our area employers.

Objectives: To identify common interests and to develop community goals that will attract participation from area business leaders.

6.1. Scholarship/Employment

Strategy: Develop a program with area business leaders that would identify job opportunities, apprenticeships and scholarships.

Partners – STAWNO and Neighborhood Business Community

Funding – Community Resources

Budget \$0 – Unfunded Priority

St. Anthony West NRP Phase II Plan

E. Strategy Summary

St. Anthony West Neighborhood Organization's NRP Phase II program was by design focused on community outreach. Over the past 12 months, the STAWNO NRP Committee's goal was to directly interact with neighborhood residents, then by serving as a conduit, to develop and broadcast, under NRP Phase II guidelines, a general consensus of our community's concerns and aspirations.

From mid-January through May of 2009, STAWNO's NRP Committee, with an assist from neighborhood volunteers and NRP Field Staff, was able to identify and develop this "general consensus" into a series of separate programs grouped under 6 primary goals and 33 individual strategies. STAWNO's commitments to those Phase II goals will be tempered by a projected* NRP budget of \$224,000, requiring judicious allocation of available funding during program planning and implementation.

Our St. Anthony West Neighborhood's ability to meet all of its suggested goals are challenged by limited funding and by volunteer sweat-equity commitments to many of the unfunded strategies. The ultimate success of our NRP II Planning rests with a community that has traditionally risen to that challenge.

* St. Anthony West Neighborhood's NRP funding availability is limited. While \$224,642 has been allocated to the Phase II plan, as of this writing, it is anticipated that only 80% of this allocation (or \$179,714) will be available.
